

# Skargard

Our love of natural products and the "Bohuslaenska" is reflected in our range and with special consideration for the environment.

Skargard's seawater soaps are made of 100% natural ingredients and are equipped with a handmade loop of hemp rope with a cork, so they won't sink! They give a nice foam in salt water.

The soaps come in two sorts, sea weed and seabuckthorn. They both contain natural oils to not dry out the skin.
